Medak Road Network (Andhra Pradesh)

Medak Railway Network (Andhra Pradesh)

Background:

The District is bounded on East by Warangal and Nalgonda Districts, on the South by Rangareddy district, on the West by Bidar district of Karnataka State and on the North by Nizamabad District. The main river of the District is Manjeera.

Medak district is a backward district with more than eighty percent of the population dependent on agriculture. It has a low literacy rate and low per capita income. Industrialization is confined to a few pockets, nearer to Hyderabad. Main crops grown in the district are rice, maize sugarcane, jowar and chillies. A large quantity of maize and sugar cane are available for industrial exploitation. Cultivation of aromatic plants is being encouraged. There is surplus fruit in the district like Mango, Papain for industrial use. The district has a good poultry population and significant egg production. Sericulture is mainly confined to Siddipet region, but offers scope for development in other areas too. Manual deposits are not many. Quarry, Quartz and sand are found. Handlooms sector is lagging behind because of not implementing new techniques, which can be found in Pochampalli, Bhongir and Nalgonda district.

DISTRICT AT A GLANCE

1 **Geographic location:**

a) Geographical Area

9699 Sq.M.

b) Latitude

Between 17° & 18° deg N

Resources:

HUMAN RESOURCES:

The Entrepreneurial Talent is an important input for industrialisation. Educated, Skilled and Engineering people make an industrially developed society. Medak district, being a neighbouring district of the State Capital of Hyderabad, has the advantage of good educational infrastructure. Yet, the district does not have an impressive literacy rate and it is rated as one of the backward district of the state. Most of the Large and Big Small Scale Industries in the district are promoted by the people outside the district.

Agro Resources:

Paddy, Cereals, Jowar, Oil seeds and Chillies are the major crops. Paddy occupies an important place in District occupying 33 % of the area. Cotton and Sugarcane are also predominantly cultivated.

Horticulture:

Mango, Guava, Orange, Papaya , Grapes and Water Melon are the major fruit crops of the District. The Fruit crops are cultivated over an area of 6929 Hectares.

FORESTS:

Medak district has a forest cover of 277893 Acres mainly in and around Narsapur Mandal. The forest consists of Shrubs. Main forest produce are a small amount of Teak, Beedi Leaves, Mahuva seeds, Tamarind etc.

MINERALS:

Medak district has very meager mineral resources. The Major minerals found in the district are Quartz, Reserve of **3280** thousand tonnes and Laterate. Other Minerals found are Amethyst Quartz, Silica sand, Ochre, Pink granite and morram. The places of occurrence of these minerals are given below:

Mineral	Places of Occurrence in the district
Quartz	Narsapur, Mallepally, Hussainabad, Andole, Gottimukala, Thimmapur, Mellakapur, Bhogurpally, Shankarampet etc
Amethyst	Allapur, Shivampet, Chinnakodur, Railpur, Chettla thimmaipally
Laterate	Shekpur, Buchenelly
Silica sand	Reyalamadugu, Massipet, Yeldurthy
Red Ochre	Zaheerabad surrounding areas
Pink Granite	Alladurg, Jogipet, Yeldurthy
Road metal	Patancheru, Ramachandrapuram Mandals.
Sand	Yeldurthy, Ramayampet, Dubbak, Mirdoddi, Chinnakodur, Narayankhed and Sangareddy.

LIVE STOCK:

After agriculture, Animal Husbandry, comprising of dairy activity, poultry, sheep, goat and pig rearing is an important activity of 10% of the population of the district. This activity provides employment to about 3% of the population of the district. The total Live stock population of the district is 2075511 Nos. besides Poultry

population of 2699077. Farmers in the district maintain 2 to 3 milch animals. The estimated milk production per day in 1997 was 234 tonnes. The NABARD and Lead Bank of the district have identified dairying as a key activity. Farmers can be motivated to take up this activity. Since there is a gap of about 400 tonnes between supply and demand.

MILK CHILLING FACILITIES:

There are milk chilling centres in Zaheerabad and Narayankhed in the district. The Animal Husbandry Department upgrades cattle through artificial insemination, by utilising semen of proven bulls. The district has 116 such centres. The total number of Veterinary intuitions that serve the needs of the dairy farmers are:

1.	Poly Veterinary Clinics	1
2.	Veterinary Hospitals	11
3.	Veterinary Dispensaries	76
4.	Veterinary Doctors	82
5.	Rural Live Stock units	137
6.	Other Live Stock Institutions	16

FISHERIES:

Being a land locked district, Medak has no scope for Marine fishing. Only inland fishing activity is under taken, in spite of the drought conditions in many parts of the district, due to the presence of some water bodies like the Pocharam Reservoir and the Manjeera Barrage etc. The kinds of Fish produced are Catla, Rohu, Mrigal. The fish production is to the tune of 5000 tonnes every year.

The water spread area available for fisheries are as under:

1.	Poacharam reservoir	1664 Hectares
2.	Majeera Barrage	1152 Hectares
3.	Singoor Reservoir	42080 Hectares
4.	Tanks	34879 Hectares

Two fish seed farms at Medak and Manjeera Barrage exist which sell seeds to the fishermen. There are 55,413 fishermen families and 315 fisherman cooperative societies with 11,936 members.

Social Forests:

To check degradation of land, and to meet the stipulation that a minimum of 33% of geographical area should be under tree cover, the Andhra Pradesh Forest

Development Corporation has plans to develop waste lands under the Integrated Waste Land Development Programme with an out lay of Rs.700 Lakhs.

Infrastructure:

EXISTING INDUSTRIAL ESTATES / INDUSTRIAL DEVELOPMENT AREAS:

The Andhra Pradesh Industrial Infrastructure Corporation Ltd., (APIIC) has established Industrial Estates and Industrial Development Areas in Medak district. An Industrial Estate for Non-Resident Indians is also set up by ANRICH at Bollaram. A private Industrial Estate/ IDA by Name " Sri Venkateshwara Cooperative Industrial Estate (SVCIE)" has also come up at Bollaram. The details are as under:

Sl.No.	Estate/IDA	No. of Plots Developed	No. of Sheds constructed	No. allotted		No. Vacant		Cost per Sq.M. Rs.
				Plots	Sheds	Plots	Sheds	
1.	IE, Patancheru	67	34	67	34	-	-	325/-
2.	IDA, Ph-I, Patancheru	84	-	82	-	2	-	325/-
3.	IDA, Ph-II, Patancheru	49	-	44	-	5	-	325/-
4.	IDA, Ph-III, Patancheru	21	17	21	17	-	-	325/-
5.	IDA, Ph-IV, Patancheru	88	-	88	-	-	-	325/-
6.	IDA, Ph-V, Patancheru	33	12	33	12	-	-	325/-
7.	AIE, R.C.Puram	15	35	15	35	-	-	500/-
8.	RIE, Zaheerabad	38	12	38	12	-	-	75/-
9.	IDA, Pashamailaram							
	Phase-I & II	361	36	241	31	120	5	210/-
	Phase-III	284	--	10	-	274	-	210/-
10.	IDA, Yelumala	47	-	11	-	36	-	60/-
11.	EPIP Pashamylaram	104	54	-	05	104	49	100/-

Undeveloped Land is also available at the following location (Rate is to be fixed):

Sl.No.	Location	Extent in Acres
1.	IDA, Pashamailaram	30.09
2.	Islampur, Toopran(M)	39.26
3.	Indrakaran, Sangareddy (M)	79.19

ESTABLISHMENT OF NEW INDUSTRIES ESTATES / INDL. DEVELOPMENT AREAS

The APIIC has proposed to establish new I.Es/IDAs in the district for setting up of industries at Islampur, Toopran Mandal and Buchinelly, Zaheerabad Mandal and Land Acquisition is under progress as follows:

1.	Islampur(V), Toopran(M)	50 Acres
2.	Buchinelly(V), Zaheerabad(M)	500 Acres

WATER:

Medak district is highly dependent upon monsoon for water. Due to insufficient rains, the district's main source of water is ground water. As use of water by the industrial sector is only a small percentage of the total water consumption, units in the district may not face any problems of water shortage. Drinking water Majeera barrage and Singoor Reservoir is supplied to the Industrial Areas of Patancheru, Ramachandrapuram. There is a proposal with the state government for supply of Majeera Water to the Zaheerabad Town and Industrial units.

The district has poor irrigation facilities; Hence, DRIP irrigation is identified as a thrust area. The Department of Horticulture envisages covering 36000 acres under DRIP irrigation during the period 1999-2004. However water is supplied from Manjeera Barrage to Ghanpur Ayacut for irrigation purpose.

RAILWAY NETWORK:

Medak is a part of Railway Infrastructure covering the total railway route of 69 KMs (approx.) as mentioned below:

1.	Manoharabad to Akkannapet	41 Kms (approx.)
2.	Zaheerabad to Chitta	19 Kms "
3.	Tellapur to Patancheru	09 Kms "

Apart from the above coverage the South Central Railway has facilities to transport goods and passengers from the railway stations such as Manoharabad, Brahmanapally, Masaipet, Srinivasnagar, Wadiyaram, and Akkannapet which are situated in the main line between Secunderabad and Nizamabad. Further Zaheerabad, Metalkunta and Chitta Railway stations are situated in the main line between Secunderabad and Perli Vijnath. Patancheru which is constructed and

presently operated for goods traffic. The gauge conversion work is in progress in the railway lines between Manoharabad to Nizamabad (Metre gauge to Broad gauge).

MARKET YARDS AND SPECIAL MARKET OUTLETS:

Medak district lacks good storage facilities for preserving the products leading to huge wastage of the crop. There are very few fruit processing units in the district to process the fruit produced. Mango, Guava and Orange produced here are marketed in the district and in the state capital. Mangoes are also exported. The department of Horticulture and A.P. Marketing Federation can assist in export of mangoes.

There are six market yards in the district at Siddipet, Medak Jogipet, Sanareddy, Sadasivpet and Zaheerabad. One cold storage under private sector has come up at Peddapur village of Sadasivpet Mandal

ROAD TRANSPORT:

Medak district has good network of roads the national high way No.9 connecting Hyderabad to Mumbai passes through the district, thereby connecting Hyderabad to Places in Karnataka and Maharashtra. Other highways that pass through the district Hyderabad – Nagapur National Highway and Hyderabad – Karimnagar state Highway.

As all areas of the district are not connected by the Rail, Road transport is the common means of transport in the district. The APSRTC operates regular services in the district. It has Eight Bus depots at Medak, Siddipet, Zaheerabad, Sangareddy, Narayankhed, Ramachandrapura(BHEL), Dubbak and Pregnapur. APSRTC has a fleet of 500 hundred buses operating in 243 routes. 1474 goods vehicles operate in the district to transport goods.

TELECOMMUNICATION:

Medak telecom district is serving over a Geographical area of 2.78 Lakh Sq.Kms. with a population of nearly 25 Lakhs through 126 electronic exchanges with a capacity of 92520 lines and 73679 working connections. D.Tax is at Sangareddy, working with 5038 lines out of 5200 lines capacity. Telegraph service also serving in the district with one D.T.O, 7 T.C. and 19 combined offices in various Town and Villages now 100% of exchanges are on stable media. There are 2563 local public telephones including 1367 STD PTs working in the district. Out 1228 villages in the

SSA 1048 villages are provided with telecom facilities. The Internet services are provide through exclusive 'C' Node and presently 179 customers are utilizing this facility. Out of 45 mandals in the SSA , 39 Mandal Headquarters are provided with Internet Dhabas. IN services are introduced in the SSA with ITC cards. About 42 IN PCOs at locations of Sangareddy, Patancheru, Medak, Siddipet and Zaheerabad are also operated in the SSA to catter to the needs of ITC cards users. IVRS facility is introduced at Sangareddy. CLIF facility is provided in 66 exchanges. DOT SOFT is introduced at Sangareddy. This will enable the customer all services of the department under single window. WLL service operated at Alladurg, Siddipet, Gajwel and Medak taking the BSC at Patancheru. Latest Switching like 5ESS at Patancheru and 5ESS RSU at Eddumailaram commissioned in SSA it is first latest switchining in AP-Circle. ISDN facility is introduced in patancheru, Eddumailaram and Sangareddy. Leased Circuits also providing to private parties on annual rental basis. Now 27 Leased Circuits are working.

TOURISM:

The following are the prominent tourist centres in the district

1. Medak Old Church built in the year 1620 consisting of 1 Brass gun. This is the biggest church in South India having **91** Metres Length and **45.5** Metres Breadth prayer hall with glass doors and **53** Metres height of cathodral.
2. Yedupayalu This is Located in Kulcharam Mandal were the **7** sub-rivers of Manjeera join at one place. During Shivarathi Festival special "Jathara" is organised. Durga Temple is located on the bank of the this Yedupayalu.
3. Kondapur This is Located about **69** Kms districts from Hyderabad. An Archeology Museum is established were Historical Idols, Monuments are stored for exhibition.
4. Singoor Project This is located at about **30** Kms from Sangareddy, in Pulkal Mandal were from the drinking water is drawn for supply to Twin cities.

Industrial Scenario:

Large & Medium Industries:

The District has 284 Large & Medium Industries with in investment of Rs. 3544 Crores. In Private sector, the important industries ae Mahindra & Mahindra Ltd., Dr. Reddy's Laboratories, MRF Ltd., Aurobindo Pharma Ltd., Hetero Drugs Ltd.,

Medicorp Technology Ltd., Neuland Labs Ltd., Biological Ltd., Samkarg Pistons Ltd., ITW Signode India Ltd., Pennar Steels Ltd., Asian paints Ltd., Ralchem Ltd., PSM Spinning Ltd., Kirby Building Systems Ltd etc.

The important product manufactured under Large and Medium sector are Turbines. Generators, Electrical Equipment, Missiles, Light combat vehicles, Sugar, Bulk Drugs, Formulations, (Capsules, Syrups, Injections, Tablets, Powders), Pesticides and Formulations, V-Belts, Cotton and Synthetic yarns, Tires, Tubes and Flaps Beer, Cool Drinks, Electrical Fans, Refrigerators, Air Coolers, Building Systems, CR-Steel Strips etc.

Small scale Industries and Tiny Industries:

Industries with investment of more than 25.00 Lakhs but up to Rs.1.00 Cores on Plant and Machinery are called Small Scale Industries. Under Tiny sector the investment limit on Plant and Machinery is up to Rs.25.00 Lakhs.

There are 4,266 Tiny and Small Scale Industries set up in the district up to 31st December 2001 which are permanently registered in D.I.C. These industries have a capital investment of Rs.383.05 Crores providing employment to 56,610 persons.

S.NO.	CATEGORY	No. of units	Investment (Rs. Lakhs)	Employment
1	Basic Metal Products	557	5970.80	7687
2	Beverages & Tobacco Products	34	519.36	6112
3	Chemical, Bulk Drugs & Formulations	332	10661.10	7479

16	Others	39	1836.11	602
	Total	4226	38304.73	56160

Automobile Corridor: Sangareddy to Zaheerabad:- The Medak district is strategically located very close to the twin cities of Hyderabad and Secunderabad. Any place of this district is within 100 KMs from the twin cities. In view of the proposed large truck project of M/s Mahindra and Mahindra in Zaheerabad, there is lot of scope for Ancillaries in the Automobile Sector. At present M/s Mahindra and Mahindra for their present manufacturing facilities has about 15 Nos. of units as their Ancillaries in and around Zaheerabad.

The following industries viz. Body Fabrication, Clutch Plates, Gear Box, Leaf Springs, Fibre Components, indicator meters etc. have potential.

M/s APIIC had earlier identified 190 acres of land in Zaheerabad and subdivision of land is yet to be taken up. However it is understood that APIIC is not going ahead with this proposal as there is no water source. Bidar Town of Karnataka State is about 8 KM away from the Plant of M/s Mahindra & Mahindra. And there is good water supply in Bidar. The Government may have to make arrangement for water for the proposed industrial estate, as it is feared that units ancillary to M/s Mahindra & Mahindra Ltd., may come in Bidar of Karnataka State.

FOOD AND AGRO BASED INDUSTRIES: The District Administration has distributed about 25404.21 acres of waste land to the landless poor. The District administration has already motivated the 23524 beneficiaries of these waste lands to go in for cultivation of non-conventional crops like Medicinal Plants, Bio-diesel Plants like Jetropa, Pungomia, Sweet Shorgam, Neem etc. There is good potential for agro processing industries like Bio-diesel producing units, medicines extraction & Preparations, neem seed processing, corn based products.

ANCILLARIES TO PUBLIC SECTOR / UNDERTAKINGS: The Public Sector units (BHEL, Ordnance Factory & BDL) are to some extent supporting the local industries by procuring their requirements from the units located within the district/State. The list of products / items procured from outside the state is obtained and the same can be suggested to entrepreneurs. Vendor development programmes will be organized with these public sector units and win-win situation will be created between the PSU and the SSI units and the entrepreneurs will be encouraged to take up those products/items which the PSU's are procuring from outside the state.

APPAREL PARK, PASHAMAILARAM: APIIC has around 175 acres of land in Pashamailaram out of which 50 acres are allotted to M/s Padma Power Loom. As on date an amount of Rs. 188.00 Lakhs is spent for of development infrastructure like roads and power in this an area of 50 acres. It is reliably learnt that the Central Government has rejected M/s Padma Power loom proposal. Hence in this semi developed area an apparel/textile park can be developed / encouraged.

INFORMATION & TECHNOLOGY PARK: It may be pertinent to note that Ramchandrapuram and Patancheru Municipalities are proposed to merged into Greater Hyderabad. The Hitech city is well connected by '4' lane road and the Ramchandrapuram and Patancheru Municipalities located on the Mumbai High Way are within 15 KMs. Hence these areas are well suitable for IT Parks / Units.

NEW INDUSTRIAL ESTATES: APIIC has presently identified places at Phase-II, Patancheru for 3.5 acres & IDA Pashamylaram, Patancheru for 200 Acres for development of Industrial Estates.

TOURISM PROJECTS:

- a. Tomb near Patancheru – Beautification and Development.
- b. Yedupayala Jatra.
- c. Medak Church.

Investment Opportunities:

1. Agro Based Industries:

- a) Rice Mills
- b) Mini Dall Mills
- c) Spices Powders
- d) Potato wafers
- e) Rice and corn flakes
- f) Oil extraction from Aromatic Plants

2. Mineral based industries

- a) Stone Crushing
- b) Sanitary ware
- c) Fire Clay Bricks
- d) Granite Tiles
- e) RCC spun Pipes

4. Chemical Based Industries

- a) Pharmaceutical formulations
- b) Camphor tablets
- c) Mosquito Coils
- d) Chemical Compounds

5. Engineering Industries

- a) Heavy Equipments
- b) Electrical Turbines
- c) Engineering components
- d) Waste Heat recovery systems

New Projects Coming-up:

s/No	Name and Address of the Unit	Line of activity	Investment (Rs in Lakhs)
1	M/s.Trinity Beverages Pvt. Ltd., Shed No.6-25, S.No.202, Patighanapur (V), Patancheru (M), Medak	Carbonated Drink	500
2	M/s.Aurobindo Pharma Ltd., (Unit-VI), Chitkal (V), Patancheru (M), Medak Dis	Formulations	2000
3	M/s.Dhanalaxmi Iron, Bonthapally (V), Jinnaram (M), Medak District.	Sponge Iron	977
4	M/s.Saraca Laboratories Ltd., Medak District (Expansion Project)	Pharmaceuticals	25
5	M/s.Global Tool Technics, Bontapally (V), Jinnaram (M), Medak District.	CNG Engineering	132
6	M/s. Padma Jyothi Power loom textile park Ltd., IE, Indravaram (V) Sangareddy (M), Medak Dist	Cotton yarn processing	2450
7	M/s. Spearhead Nandan Bio-Extracts P Ltd, Hugli (V), Zaheerabad (M), Medak Dist	Tamoto Crush/ Pure Mango Pulp/Conc.	1025
